WELCOME TO BRITAIN!

FRIENDLY MESSAGES FROM THE PEOPLE OF SLOUGH, BERKSHIRE

(A compilation of genuine opinions from members of the Facebook group SLOUGH 1970's in August 2013. In most cases, quotes have been edited, solely for the purpose of spelling, grammar and legibility.)

"Racism is a natural thing. Multiculturalism does not and will not work."

C. D

"I am a bit racist but not colour prejudiced and so a family from the Caribbean would fit in better than a Romanian family."

C. D

"There are very few shades of skin colour in this world and one has to differentiate between them."

T. R

"After another two trips to the park, I've seen the same non-English speaking scenario! We spend more time catering for non-Brits living here than our own."

J. C

"You can only be racist if you are the majority, and that's not the case in Slough. Officially."

G. D

"People who shout 'Racist' are the racists."

P. D

"Tell these people that Britain's full to the brim."

M. F

"British-born people cannot get adequate housing as it's being given to the locusts of society. This is England and when I go to town I feel like I'm in another country!"

L. R

"I'm fed up apologising for being white in my own country. When I watch a news item from schools, I see only a couple of white faces. The rest are not."

J. P

"It's now extremely rare to walk past a conversation in the street and hear English being spoken!"

L. R

"Just because a person calls a spade a spade does not make their point any less valid."

S. B

"We are all entitled to our own opinions. Whatever we say we always get accused of making racist comments."

M. C
